About us

Sprinter 2000 S.A. is a Romanian company established in 1994 in Braşov, which initially established itself in the field of the distribution of important brands of batteries and accumulators: VARTA, SAFT, STECO.

After year 2000, the portfolio of products and distributed brands has expanded with other well-known brands: HOPPECKE, PELI, WOLF, OSRAM, GENERAL ELECTRIC, AEG as well as our own brands: FOTON, ESCAPE.

Since 1999 Sprinter 2000 S.A. has diversified its distribution and trade activity and developed the production for two-way radio batteries and customized assemblies of batteries, which are included in various products for civilian and military applications.

Sprinter 2000 S.A. offers consulting services on choosing the optimal technical solution, sale, installation, after sales service, testing and monitoring for power supply equipment.

- Batteries and accessories for two-way portable radio stations;
- Accumulators and accumulator assemblies;
- Batteries and battery assemblies;
- Stationary and traction batteries;
- Rectifiers, UPS and generators;
- Portable lighting sources - flashlights and projectors;
- Protective cases;
- Weapon cleaning and maintenance solutions;
- Car accessories;

Batteries and accessories for portable radios

Foton
ALWAYS ENERGY

SAFT

ARTS
ENERGY

Panasonic

- Batteries for most of two-way portable radios: (Motorola, Kenwood, ICOM, Nokia). These batteries are produced by Sprinter 2000 S.A. in Romania using cells from Saft, Panasonic, ARTS
- Single and multiple chargers
- Hands-free systems for two-way radio stations.

Batteries and battery assemblies

Sprinter 2000 S.A. sells a wide range of batteries and can also produce customized assemblies in various configurations. It can also produce plastic injected housings.

Applications:

- aiming systems;
- thermal imaging cameras;
- communication systems;
- general use.

Types:

- alkaline;
- lithium (1.5 V, 3 V, 3.6 V).

Accumulators and accumulator assemblies

Foton
ALWAYS ENERGY

SAFT

EnerSys
Power/Turb Solutions

Panasonic

Sprinter 2000 S.A. sells a wide range of batteries used in civilian and military applications.

Applications

- ethylo-tests / Alcohol meter;
- communication systems;
- Nestor, MARS and CORAL-Z thermal imaging cameras;

Types:

- Ni-Cd;
- Ni-MH;

Storage and traction batteries (accumulators)

Storage and traction accumulators:

- Chemistry: Lead-acid, Ni-Cd, Ni-MH, Li-Ion.
- Technologies: vented and sealed cells / block
- Individual voltages:
 - Lead-Acid: 2 V, 6 V, 12 V;
 - Ni-Cd, Ni-MH: 1.2 V;
 - Li-ion: 26.9 V; 51.2 V

Application:

- Backup power supply in energy stations, industrial production units, telecommunications sites, public buildings
- UPS power supply
- Storage in solar or wind installations;
- Safety transport systems;
- -Electric vehicles and machinery.

Containerized power supply

Types of batteries:

- Lead – Acid
- AGM / GEL;
- Ni-Cd;
- Li-Ion.

Characteristics:

- Customized capabilities, up to 2.5 MWh

Applications:

- Power supply for camp or construction sites that do not have the possibility. To be connected to electricity networks or use in "buffer" mode for applications that require continuous, uninterrupted power supply.

Rectifiers, UPS and engine electric generator set

SALICRU

IPS

ELTEK
A Delta Group Company

TEHNOLINK

Rectifiers for AC to DC conversion and powering various equipments.

Inverters for DC to AC conversion and powering various equipments.

UPS's to ensure continuity of AC power:

- Modular, online, double conversion;
- Tower type, online, double conversion;
- Rack-able, interactive lines or online with double conversion
- Available powers: 1.5 kVA... 1,500 kVA.

Fuel / Gas electric generator sets:

- Available powers: 10 kVA... 2500 kVA.

Frequency converters:

- Available powers: 0.75 kW... 500 kW.

Portable lighting, flashlights

Sprinter 2000 S.A. has a rich offer of portable lighting systems and professional flashlights:

- portable lighting systems (RALS);
- front and hand flashlights; Ex-proof flashlights;
- submersible flashlights;
- tactical flashlights;
- industrial projectors.

Protection cases

Sprinter 2000 S.A. offers protective cases to ensure the proper functioning of equipment in the most difficult conditions environment (excessive humidity, extreme temperatures, high pressures, particle infiltration dust, etc.) or as a result of mechanical shocks and even severe impact. They guarantee superior transport protection for fragile tools and equipments.

Weapon cleaning and maintenance solutions

BRUNOX - RANGE OF SWISS WEAPON CLEANING, MAINTENANCE AND PRESERVATION SOLUTIONS:

- BRUNOX - range of Swiss weapon cleaning, maintenance and preservation solutions
- Brunox Gun Care: cleaning substances, lubrication and protection against corrosion for weapons, with NATO approval (NSN); does not attack the wooden parts, plastic, rubber; does not contain silicone or ammonia
- Brunox Lub & Cor: lubricant and protector for metal surfaces; provides long-term anticorrosive protection (in case of storage)

OTIS is an American manufacturer of innovative systems for weapon maintenance: tools, accessories and kits for gunsmiths. (photo) OTIS – portable kit.

Car's accesories

- car and motorcycle batteries;
- car bulbs;
- starting cables and robots;
- rectifiers;
- rims and tires.
